REPORT OF THE AUDIT COMMITTEE

The Audit Committee is composed of six "independent" directors as defined in the New York Stock Exchange listing standards. The Audit Committee operates under a written charter adopted by the Board of Directors. The Audit Committee recommends to the Board of Directors, subject to shareholder ratification, the selection of the Company's independent auditors. Management is responsible for the Company's internal controls and the financial reporting process. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and for issuing a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes. In this context, the Audit Committee has met and held discussions with management and KPMG LLP, the Company's independent auditors.

Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and KPMG LLP, including the scope of the auditors' responsibilities, significant accounting adjustments and any disagreements with management.

The Audit Committee has discussed with KPMG LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

The Audit Committee has also received the written disclosures and the letter from KPMG LLP relating to the independence of that firm as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), has discussed with KPMG LLP that firm's independence from the Company and considered the compatibility of nonaudit services with the auditors' independence.

Based upon its discussions with management and KPMG LLP and its review of the representation of management and the report of KPMG LLP to the Audit Committee, the Audit Committee has no reason to

believe that the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 contain an untrue statement of material fact or omit to state a material fact necessary to make the statements made not misleading (in light of the circumstances under which they were made). Accordingly, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 filed with the Securities and Exchange Commission.

RETIREMENT PLANS

Pension Plan. The Company provides retirement benefits under a defined benefit pension plan to substantially all employees who had earned benefits as of December 31, 1996. Benefits under the pension plan are based upon both length of service and compensation and are determined under a formula based on an individual's earnings and years of credited service. Funding is determined on an actuarial basis. Effective December 31, 1996, participants in the pension plan ceased to accrue additional benefits; provided, however, that participants who had completed at least five years of service as of January 1, 1997 and whose age plus years of service equaled at least 65 continue to earn an accrued benefit until the earlier of (i) December 31, 2001 or (ii) retirement, death or termination of employment (with the exception of certain highly compensated employees if the pension plan does not meet certain coverage requirements of the Internal Revenue Code).

The following table shows estimated annual benefits payable under the pension plan at normal retirement age of 65 years based on the specified remuneration and years of service:

(1) Average compensation represents compensation based upon a benefit formula applied to an employee's career average earnings, which approximates the amount of salary set forth in the Summary Compensation Table. The maximum amount of covered compensation is \$170,000, or some other amount as

may be determined by the Secretary of Treasury pursuant to Section 401(a)(17) of the Internal Revenue Code.

Benefits are computed on a straight-life annuity basis, and are not subject to offset for Social Security benefits or other amounts. The years of service credited for the Named Executive Officers under the pension plan are presently as follows: Mr. Minor, 36 years; Mr. Smith, 11 years; Mr. Berling, 33 years; Mr. Kaczka, not eligible; and Mr. Guzmán, not eligible.

Supplemental Executive Retirement Plan. The Company provides supplemental retirement benefits to certain employees selected by the Compensation & Benefits Committee under the Supplemental Executive Retirement Plan (“SERP”). The SERP entitles participants to receive a specified percentage (in the case of the Named Executive Officers, 65%) of the participant’s average base monthly salary (plus bonus for certain participants, including the Named Executive Officers) during the five years preceding his or her retirement reduced by the benefit payable under the pension plan, Social Security and any defined benefit pension plan of a prior employer. The estimated annual benefits payable under the SERP upon retirement at normal retirement age for the Named Executive Officers are:

Mr. Minor \$491,809, Mr. Smith \$376,485, Mr. Berling \$225,164, Mr. Kaczka (participation effective 1/1/03), Mr. Guzmán (participation effective 1/1/02).

REPORT OF THE COMPENSATION & BENEFITS COMMITTEE

The Compensation & Benefits Committee (the “Compensation Committee”) is comprised of six outside directors who are not current or past employees of the Company. The Compensation Committee’s primary functions are to:

- oversee the design and competitiveness of the Company’s total compensation program,
- evaluate the performance of the Company’s senior executives and approve related compensation actions, and
- administer the Company’s compensation plans for officers.

The Compensation Committee met four times during 2001.

Executive Compensation Philosophy

The Compensation Committee’s philosophy is to:

- establish and maintain programs and practices that promote achievement of the Company’s strategic objectives,
- provide rewards that reflect the Company’s performance, and
- align executives’ financial interests with those of shareholders.

To accomplish this, compensation for executives is based on measures of the Company’s financial performance and strategic results that should translate to increased shareholder value.

The Compensation Committee also strives to maintain market competitive compensation levels. To meet this objective, the Compensation Committee evaluates executive compensation levels through comparisons to the peer companies included in the performance graph of this proxy statement, and other companies of similar size and operating characteristics. Base salaries are targeted at competitive market median for like experienced executives. Annual incentive compensation opportunities, when combined with base salaries, are intended to fully reach competitive median total cash compensation levels as warranted by the Company’s and the individual officer’s performance. Longer-term incentive compensation opportunities, such as stock options and restricted stock, link executive compensation with achievement of strategic objectives and shareholder value growth. This combination is intended to focus management on the annual and longer-term success of the Company.

The Compensation Committee recognizes that sometimes it is necessary to sacrifice short-term financial performance to obtain longer-term business success. The Compensation Committee regularly monitors the balance between annual and longer-term rewards and acts as needed to encourage meaningful levels of share ownership among executives. The Management Equity Ownership Program (MEOP) adopted in 1997 for the Company’s officers further aligns the interests of executives and shareholders.

Committee Process and Compensation Administration

In deciding base salary levels, incentive payments and granting of stock options and restricted stock, the Compensation Committee looks to the Chief Executive Officer for recommendations on senior executives. The Compensation Committee meets privately, without the presence of management (including the Chief Executive Officer), to determine compensation actions for the Chief Executive Officer. To maintain the desired level of competitiveness and technically sound compensation and benefit programs, the Compensation Committee obtains input from the Company's Human Resources Department and periodically from outside advisors.

Base Salary

Consistent with the Compensation Committee's compensation philosophy, in 2001 base salary increases for the Named Executive Officers were determined based on individual performance and the competitiveness of their current salary. The Chief Executive Officer received an increase in base salary to \$680,000.

Annual Incentive

Each year the Compensation Committee meets to review key aspects of the upcoming year's business plan and establish Annual Incentive Plan goals for each corporate officer, including the Chief Executive Officer. Goals under this plan are weighted to reflect their importance and contribution to Company performance and therefore shareholder experience.

The 2001 Annual Incentive Plan goals for named executives included a minimum net income goal and Company results measured by revenue growth, profitability and earnings per share. The Compensation Committee receives periodic updates during the year on business performance in relation to incentive plan goals.

At the close of each year, the Compensation Committee meets to discuss performance compared to Annual Incentive Plan goals and longer-term strategic business goals. These longer-term business goals center around the Company's strategic objectives to remain customer oriented in everything it does and to actively evolve its business consistent with the service needs of customers and the Company's markets.

For 2001 the Company showed a 9 percent increase in sales to \$3.8 billion from \$3.5 billion in 2000. Excluding the effects of after-tax restructuring credits taken in 2001 and 2000, as well as two unusual charges and an extraordinary item recorded in the third quarter of 2001, net income increased to \$37.5 million in 2001, compared to \$32.7 million in 2000. Net income per diluted common share, excluding the effects of the restructuring credits, the unusual charges and the extraordinary item, was \$1.03, compared to \$0.93 in 2000.

The target cash award payable under the Company's Annual Incentive Plan to the Chief Executive Officer for meeting targeted Company financial goals was 60% of his base salary. Based on these performance measures, the Chief Executive Officer earned an annual incentive award of \$333,009. The named executive officers also received bonuses for 2001 performance.

Under the Company's Annual Incentive Plan, executives are also eligible to receive a bonus of Common Stock equivalent to an additional 25% of the cash incentive payment. The shares are restricted and vest provided the officer remains an employee of the Company for the following three years. The restricted stock bonus for Named Executive Officers is dependent on performance against the same goals as for the Annual Incentive Plan. A stock award was made to the Chief Executive Officer in the amount of 4,333 shares.

Long-Term Incentive Plan

Each year the Compensation Committee considers granting awards under the Company's stock option plan. The plan provides for the use of non-qualified stock options, incentive stock options, restricted and performance-based awards, and stock appreciation rights. The Compensation Committee's decision to grant stock options is discretionary and largely determined by financial performance and strategic accomplishments, although there are no specific performance targets for this purpose. Option grant decisions may also be based upon outstanding individual performance, job promotions and greater responsibility within the Company.

[Table of Contents](#)

Stock options are a key component of a competitive total compensation program. The Compensation Committee believes stock option grants have historically been effective in focusing executives on enhancing long-term profitability and shareholder value. The Compensation Committee granted 58,000 stock options to the Chief Executive Officer in 2001 to encourage future growth in shareholder returns. Grants were also provided to the other Named Executive Officers. The Compensation Committee does not specifically consider the number of options currently held by an officer in determining current option grant levels.

Management Equity Ownership Program

As stated earlier, in 1997 the Compensation Committee approved the Management Equity Ownership Program (MEOP) for members of the management team, including each of the Named Executive Officers. This program is intended to strengthen the alignment of management and shareholder interests by creating meaningful levels of stock ownership by management. An ownership target has been determined for each level of the management team. These targets range from four times salary for the Chief Executive Officer to one times salary for Vice Presidents. Eligible holdings in meeting these targets include direct holdings, indirect holdings, shares held through Company plans such as the 401(k) Plan and Stock Purchase Plan and restricted stock holdings. To encourage ownership and help senior management meet their equity investment targets, participants may elect to receive a portion of their annual cash incentive award in restricted stock.

Participants are given a five-year period to reach the full target ownership amount with interim ownership targets to meet each year. As of December 31, 2001, the value of the stock owned by participants, in aggregate, well exceeded the aggregate full target ownership amount. The Named Executive Officers as a group have beneficial ownership levels (excluding stock options held) of 2.8% of common shares outstanding. This is above the peer group median ownership level of 1.4% of common shares outstanding.

If a participant meets his or her target level of ownership, a 10% annual equity ownership dividend (the dividend is reduced to 5% for the years subsequent to a participant reaching his or her full target ownership amount) is paid on all Common Stock owned up to the participant's full target level. The dividend is paid in the form of restricted stock and will vest five years after grant if the desired ownership level is maintained. If a participant's ownership falls below the desired level, a portion of his or her annual bonus and/or salary increase, if earned, will be paid in the form of restricted stock and dividend shares will be forfeited until the target ownership level is met. During 2001, the Chief Executive Officer was granted an annual dividend of 7,372 restricted shares.

Corporate Tax Considerations

Congress passed a law effective in 1994, covered in Section 162(m) of the Internal Revenue Code that disallows corporate tax deductions for executive compensation in excess of \$1 million for "proxy table" executives. This law does allow for certain exemptions to the deduction cap, including pay plans that depend on formulas rather than discretion and therefore are "performance-based."

All current executive compensation is fully deductible. The Compensation Committee intends that the Company's pay plans and actions be performance-based and therefore fully eligible for compensation expense deductions.

SEVERANCE AGREEMENTS

The Company has entered into Severance Agreements with certain officers in order to encourage key management personnel to remain with the Company and to avoid distractions regarding potential or actual changes in control of the Company.

The Severance Agreements provide for the payment of a severance benefit if the officer's employment with the Company is terminated for any reasons (other than as a consequence of death, disability or normal retirement) within two years after a change in control. For the Named Executive Officers, the severance benefit is equal to 2.99 times the officer's annual base salary plus bonus.

Each Severance Agreement continues in effect through December 31, 2002, and unless notice is given to the contrary, the term is automatically extended for an additional year at the end of each year.
